

Pupil Progress Autumn 2019

The majority of pupils at Delamere continue to make expected or above expected progress in all areas of Maths and Literacy. 90% of our pupils are making expected or above expected progress in reading

Our children who are or have previously been looked after are making at least expected progress. Our data this term reflects that girls and boys are making comparable progress in all subjects

Most pupils who are accessing learning above P8 continue to making good progress in spoken language.

This term as a result of targeted intervention we have seen an improvement in the progress of our pupils who have English as an Additional Language. We are planning to continue this intervention and also provide targeted intervention for children who are in receipt of the pupil premium grant.
